Training Center

The **Daytona Beach Wolfe Brothers Face Art & FX Training Center** is now open! Three-Day courses will be offered several times throughout the year in Florida. Each course will consist of 6 3-hour classes. Classes run Tuesday through Thursday with two class sessions each day. Morning sessions are 10 am - 1 p.m. and afternoon sessions are 2-5 p.m. This leaves plenty of time for lunch and relaxation between classes.

Learn the art of face painting from master artists Nick and Brian Wolfe with step by step instructional training using the twins own Tips, Tricks and Techniques. Classes are designed to benefit both the novice and the professional. The Wolfe Brothers will share with you their unique philosophy, inspiration and practical application of make-up and special effects. Small intimate classes allow for "one on one" instruction with Nick and Brian.

At the end, you will receive a "certificate of Completion" signed by Nick and Brian Wolfe. Tuition is \$750 per week and includes all materials and supplies needed for all 6 classes. (\$250 deposit is due with registration, balance due 30 days prior to class date). Airfare, hotel, and meals are not included. \$100 product credit when fully paid registration is received at least 60 days prior to class date (Applies to 3 day Daytona Beach Training Center classes).

Step by Step Grim Reaper

An effective, easy and fast skull face design using Wolfe Hydro-color makeup and crayons is presented. Hope you have as much painting it as I did! ~ Nick

STEP 1 Cover face with yellow leaving areas around lips and eyes open.

STEP 2 Using face painting crayons, outline eyes making sure to keep area small. You can always go back and make them bigger. Outline the nose in an upside down heart shape starting at the bridge and ending about 1/4 inch above the nostrils. Outline the teeth on the lips but not going wider than the corners of the mouth.

STEP 3 Fill in eyes and nose. Draw ovals on both sides of the mouth: about 1/2 the size of the eyes. Trace the temples (you can feel them) and make hook marks coming from the inside corners of the eyes that curve around the brow. The forehead marks make a sphere shape emphasizing the frontal bone. Then outline the jaw.

STEP 4 Fill in ovals. Draw cheekbones starting at the middle of the ears and pointing between the eyes. Drag frontal lines inward, temple lines outward, cheek lines downward and eyes away from center. Add mean brow line 1/2 way thru the eyebrows, outward at a 45 degree angle.

STEP 5 Add white to teeth and highlight un-shaded areas. Trace around filled in areas such as the mouth ovals and nose. Add hood and lower the chin of your model. Yikes!

Wolfe Brothers Daytona Beach Training Camps

The Wolfe Pack recently returned from the **Face and Body Art International Convention** in Orlando, Florida. It was a great week and the best show yet! We met tons of new artists and the level of painting was some of the best we've seen anywhere. We also ran into many friends from past shows and classes.

A special thanks to Marcela, Cynthia and crew for an awesome weekend. Thanks also to our fellow vendors for their love and support: especially Leon McBride, Donna Nowak, Silly Farm, and the folks from Australian Body Art.

The most asked question was "How do we get the Wolfe brothers to teach in our town?" The answer is to call 1-877-WOLFEFX or write us on the feedback page and ask for magical **April**. She can give you all the information you need to set it up. We can't wait to hear from you. Keep those pictures and e-mails coming!
